**Why Active Sports?**

- **Unbeatable customer service**: We strive to build strong relationships with our customers that last; without our customers we are nothing.
- **Our price and selection can’t be beat**: Call and let us put together a pricing package for you. If you find a better price, we will try our best to beat it!
- **Nearly 30 years of experience and superior product knowledge**
- **Large inventory and immediate shipment**: Most items ship within the same business day.

“Active Sports has taken care of my tennis court equipment needs for years. I appreciate their excellent customer service and how fast they get me what I need.”

- Tommy Wade, USPTA Master Professional
  Jimmy Johns Tennis Center, Decatur, AL
Tennis is a social game of competition and relationship. The same principles drive our business; we strive to offer competitive pricing and create meaningful relationships that last.

Contact us for additional information and help selecting the best ball machine for your needs. 1-800-322-2848

**Why a ball machine?**

**As a personal trainer**

Whether it’s a portable machine that you can take to the local park or the most advanced PC controlled Playmate for your private court, a ball machine is a practice partner that will deliver you the perfect ball every time and never get tired! A ball machine will always give you a good workout and is always flexible to your schedule. It is good for all ages and skill levels. Bottom line, owning a ball machine will allow you to become that much better than your opponent!

**As a teaching tool**

Teaching pros and coaches know how tiring it is to feed tennis balls to students hour after hour. A ball machine eliminates this by delivering the perfect ball every time, allowing you to focus on teaching form and technique. And paired with a Serve Lift, a ball machine allows students to practice one of the most difficult shots: the return serve. Regardless if you’re the coach of a well known tennis program at a major university, a tennis player that gives lessons on the side, or anything in between, there is a ball machine to fit your needs and price range. Let us help you find the best machine and give you the best price!

**As an amenity for a club**

Any club administrator will tell you that a tennis ball machine will easily pay for itself as well as attract new members to your facility. Members want access to a tennis machine to use as a practice tool and hitting buddy; pros love having a machine around as a teaching aid. Active Sports sells only the best, most reliable machines that will offer your members and pros the most for the investment.
Just like Active Sports, Playmate™ is a family owned and operated business with a strong commitment to their products. Since 1973, Playmate™ has maintained its status as not only the most advanced tennis ball machine, but also the most dependable. Unmatched satisfaction and quality is the reason Playmate™ ball machines have an overwhelming presence in country clubs, tennis clubs, colleges, universities, and private courts everywhere.

All aircraft aluminum construction for optimal durability and no rust.

Convenient and easy-to-use rear-mounted controls that are upgradeable.

Superior engineering and only the best mechanical components.

Best-in-industry polyurethane pitching wheels that last!

All Playmate™ commercial machines are compatible with the Serve Lift.

“My Playmate ball machines from Active Sports are an important asset to my tennis program. They are easy to use and replicate patterns of match play to help our players reach their maximum potential.”

- Coach Bobby Bayliss, University of Notre Dame
Playmate™ Smash

The Smash is the base model of the Chameleon Series and is totally upgradeable; you can purchase this machine and upgrade it to a Deuce, Genie, or PC later. It’s simple controls make this machine ideal for club members.

- Variable topspin and backspin
- 7 position programmable electronic direction with programmable random
- Variable electronic height
- 300 ball capacity
- 2 function remote control (on/off with drill reset)
- Rear-mounted, user-friendly control box
- Aircraft aluminum construction for optimal durability
- Compatible with Playmate Serve Lift
- Three-year limited parts warranty

Playmate™ Smash Ball Machine
PBS01
Smash Control Box ONLY
PBS01-CB

Playmate™ Deuce

The Deuce is great for practicing two shot combinations such as a volley followed by a lob or topspin followed by backspin. The Deuce is part of the Chameleon Series.

- 2 distinct programmable shots, each with its own speed, spin, elevation, and delay
- Variable topspin and backspin
- 7 position programmable electronic direction with programmable random
- Variable electronic height
- 300 ball capacity
- 2 function remote control (on/off with drill reset)
- Rear-mounted, user-friendly control box
- Aircraft aluminum construction for optimal durability
- Compatible with Playmate Serve Lift
- Three-year limited parts warranty

Playmate™ Deuce Ball Machine
PBD01
Deuce Control Box ONLY
PBD01-CB

Playmate™ Chameleon Series ball machines allow you to easily upgrade the features of your ball machine within seconds by simply unplugging one controller and plugging in the other. Tennis clubs can purchase one ball machine and use the simplest controller (Smash Control Box Only) for rentals and a more powerful controller for teaching or running clinics.
**Playmate™ Genie**

The Playmate Genie is a powerful tool for teaching tennis. Realistic game situations with up to 7 shots can be practiced. Groups of students can practice drills such as groundstroke, approach, lob to 2 lines feeding the balls every 1 1/2 seconds. Or if you are practicing at home you can throw two ground-strokes followed by an approach shot, followed by a volley, followed by a lob. The Genie is part of the Chameleon Series.

- 7 distinct programmable shots, each with its own speed, spin, and delay
- 7 programmable shot delays
- 7 programmable directions
- 7 programmable elevations
- Random sequence switch to simulate game situations
- 300 ball capacity
- Variable topspin and backspin
- 2 function remote control (on/off with drill reset)
- Rear-mounted control box
- Compatible with Playmate Serve Lift
- Aircraft aluminum construction for optimal durability
- Three-year limited parts warranty

**Playmate™ GrandSlam**

The name says it all! The Slam is the fastest ball machine in the world. It can throw any type of spin, including:
- Left-handed slice
- Right-handed slice
- Left-handed kick
- Right-handed kick
- American twist

The Slam can land a 120 mph serve every time. It can randomly serve to a player up the “T”, at the body or out wide. The unique four-wheel design allows the Slam to grip the tennis ball like no other machine in the world.

- 7 distinct programmable shots, each with its own speed, spin, elevation, and delay
- Programmable random shot sequence
- Great for enhancing ball recognition skills
- Upgradeable and interchangeable - accepts all controllers
- 300 ball capacity
- Variable topspin and backspin
- 8 programmable shots
- 8 shot delays
- Endless saved drills
- Programmable random shot sequence
- Includes many standard teaching and personal use drills
- Create drills at home or in the office using remote display control (712kb download)
- Pocket PC has extra long battery life
- 300 ball capacity
- Variable topspin and backspin
- 8 position programmable electronic direction with programmable random
- Variable electronic height
- User-friendly
- Compatible with Playmate Serve Lift
- 2 function remote control (on/off with drill reset)
- Three-year limited parts warranty

The Playmate PC is the state-of-the-art in ball machines. The wireless controller allows you to save and recall an endless assortment of drills at the touch of a button. It can throw 8-shot combinations to 8 directions allowing you to teach groups of students or focus on a single player. There’s no more fumbling around with knobs and switches with the PC. Just select one of your drills or one of ours and hit ‘send’. Complex drills can be set up effortlessly in a matter of seconds.

- Wireless Bluetooth by Recon
- Operated at full court, 120 feet
- Waterproof and rugged
- 8 programmable shots
- 8 shot delays
- Endless saved drills
- Programmable random shot sequence
- Includes many standard teaching and personal use drills
- Create drills at home or in the office using remote display control (712kb download)
- Pocket PC has extra long battery life
- 300 ball capacity
- Variable topspin and backspin
- 8 position programmable electronic direction with programmable random
- Variable electronic height
- User-friendly
- Compatible with Playmate Serve Lift
- 2 function remote control (on/off with drill reset)
- Three-year limited parts warranty (machine only)

The Playmate PC is available as a Genie, GrandSlam, or an upgrade to any Chameleon series machine.
Playmate™ Serve Lift
Upgrade your new ball machine with a Serve Lift. Not only can the Serve Lift help you practice the most important shot in tennis, the serve return, but it can do so much more. Your opponent often hits a slice with the racquet high in the air, so practice a realistic slice that comes from a naturally elevated position to create a truly game-like environment.

- Practice defensive lobs against the ball machine’s overhead
- “Safety first” stable design
- Aircraft aluminum construction
- Three-year limited parts warranty

Playmate Serve Lift
PSL01
Weather-Resistant Cover
Serve Lift + Machine
PSLACOV

Playmate™ Ball Mower
Effortlessly pick up an entire court-full of tennis balls in seconds. Great for all court surfaces, including clay. Players get tired of picking up balls long before they tire of hitting them; this item is a must-have accessory!

- Folding arms to get through gates and between net posts
- Convenient compact storage
- Aircraft aluminum construction
- 1 year limited parts warranty

Playmate™ Ball Mower
PM01
Weather-Resistant Cover (Ball Mower)
PMACOV
Extra Ball Basket (Aluminum)
PMAB

Playmate™ Freedom Kit
The Playmate Freedom Kit allows the wireless freedom of bringing the control box to the other side of the court. Kit includes transmitter, short cable to connect transmitter to box, receiver, mounting screws and a fence-mount bracket. Compatible with all Chameleon series machines.

Freedom Kit Wireless Transmitter
PB-FREEDOM
Remote Pad
Start drills from across the court by stepping on and off this wireless pad. This accessory gives the freedom of controlling your workout or clinic because the ball machine waits for you!

PBAPAD

Drills DVD
This DVD, hosted by ball machine expert and longtime teaching pro Stan Oley, shows 26 of the most popular and effective drills that can be used with beginning, intermediate and advanced tennis players.

Special attention is paid to targets, to frequency of ball feed and to position of the machine on the court. Viewers can easily search the chapters of the DVD to find and review drills related to themselves and their students, or to locate topics of particular interest.

Drills DVD
PB-DVD

Playmate™ Professional Parts & Accessories
Active Sports stocks a wide variety of accessories and replacement parts for all Playmate ball machines. Contact us or visit our website for a full selection.

PBRRFEET
Playmate™ Portable Series

The Playmate portable series is the most reliable and powerful portable machine on the market. Borrowing all the great engineering from its larger siblings that has made Playmate the industry standard for ball machines, the Playmate portable is the perfect practice partner for tennis players of all levels and a helpful aid for teaching pros on the go.

- The only do-it-yourself (DIY) upgradeable battery-operated machine in the world; start out with the Half Volley and add features like a remote system or 2-line oscillator to upgrade it to the Volley model
- Non-memory, removable battery pack system with SMART charger
- 200 ball capacity
- Variable electronic ball speed and feed rate
- Commercial pitching wheels, capable of pitching all tennis balls (old or new)
- Adjustable height control capable of groundstrokes to lobs
- Aircraft aluminum construction
- 2 year limited parts warranty

FULLY UPGRADABLE! start out with the Half Volley and upgrade to the Volley by simply plugging in an optional 2-line oscillator module, add a commercial remote system to start and stop ball feed from across the court, the controls are already there!

Volley

The Volley comes fully loaded with all the options!

- Removeable 6-hour battery pack
- 2-line oscillator with variable electronic width and random function
- Commercial remote control

TNARDCABLE
Active Sports TN-30
Manufactured to our strict specifications, this net has a high strength vinyl headband with four rows of lock stitched dacron and features a high-strength, braided polyethylene net body. It has a vinyl-coated steel cable to resist rust and fiberglass dowels. A superb net for the price!

Active Sports TN-30 Net
TNAS30

Edwards 30LS
The same net used at Wimbledon, the Edwards 30LS features a 36 oz. vinyl headband with four rows of lock stitched dacron thread. The single-mesh net body is made of 3.5 mm polyethylene. Vinyl-coated steel cable.

Edwards 30LS Net
TNED30

Active Sports TN-60
Manufactured to our strict specifications, this net has a tough wearing, double strength vinyl headband with four rows of lock stitched dacron and a polyethylene net body with double mesh on the top six rows that is knotted at every intersection for added durability.

Active Sports TN-60 Net
TNAS60

Edwards 30LS - DNT
Manufactured by one of the most respected names in tennis, this Edwards net features a 36 oz. vinyl headband with four rows of lock stitched dacron thread and a 3.5 mm polyethylene net body with six rows of double mesh for added strength. Vinyl-coated steel cable.

Edwards 30LS - DNT Net
TNED30DNT

Active Sports TN-90
The TN-90 is our top-of-the-line tennis net and features a polyester duck headband with four rows of UV-resistant stitching. Polyethylene net body with double mesh on the top six rows that is knotted at every intersection for added durability. 6.0 mm vinyl-coated steel cable

Active Sports TN-90 Net
TNAS90

Edwards 40LS
Edward’s top-of-the-line net. It featured a spun polyester headband with quad stitching, a 3.5 mm braided polypropylene net body with the top six rows doubled for extra strength. Vinyl-coated steel cable.

Edwards 40LS Net
TNED40

All Active Sports nets are manufactured to our strict specifications. This includes superior materials and construction. For example, our nets with a double mesh top are knotted together at every intersection for improved durability.

“For years Active Sports has been there for us with great service, great advice and great products.”
- Bill Lofgren, Queen City Racquet Club, Cincinnati, OH

Measuring for custom windscreen is very easy but should be done with care to ensure proper fit and best results. A few tips:

• Measure the distance between the tension bar/stretcher bar and subtract two inches. The subtraction of these two inches allows for a better fit and the use of fastening devices.

• When possible, try to keep windscreen panels at a maximum of 60 feet in width. This allows for easier handling and installation.

• For accurate measurements, make sure the tape measurer is stretched tight so that there is no slack in the tape.

• Do NOT round off measurements. Send all measurements in feet and inches.

• Do NOT assume two fences are the same size. Measure every fence just to be safe.

• Make all measurements at site when possible rather than from drawings.

Contact us for assistance or for a quote. 1-800-322-2848
**MasterScreen Open Mesh**

Our most popular windscreen! Our polyester open mesh windscreen is made from vinyl-coated polyester mesh and is extremely strong and manufactured to last with reinforced, heat-sealed hems. Custom cut to your specifications. 6’ and 9’ heights. 70% opacity.

Call for a Quote

**DuraScreen Open Mesh**

Our Durascreen open mesh windscreen is made of a vinyl-infused, flex-foamed mesh to give it a puffy appearance and causes it to lay very nicely on the surface of the fence. Manufactured with reinforced, heat-sealed hems for added durability. 6’ and 9’ heights. 80% opacity.

Call for a Quote

**PolyScreen Open Mesh**

This windscreen is made from leno polypropylene material that does not absorb moisture and is UV-resistant. Its leno weave is resistant to tearing and works well in severe wind conditions. Standard in dark green, black, and blue. 75% opacity.

Call for a Quote

**MasterScreen Closed Mesh**

Ideal for creating a visual backdrop or for hiding an unsightly area, our polyester closed mesh material is made from premium 10 oz. vinyl-coated polyester. Reinforced, heat-sealed hems with grommets every 12”. Available in dark green only. 6’ and 9’ heights. 99% opacity.

Call for a Quote

**DuraScreen Closed Mesh**

Our Durascreen closed mesh windscreen is made of a vinyl-infused, flex-foamed mesh to give it a puffy appearance and causes it to lay very nicely on the surface of the fence. Added opacity for greater coverage. 6’ and 9’ heights. 95% opacity.

Call for a Quote

**PolyScreen Closed Mesh**

A great site barrier and background material, our polypropylene closed mesh is very durable and withstands the elements well. It does not absorb moisture and is UV-resistant. Manufactured with reinforced hems with grommets every 12 inches. 95% opacity.

Call for a Quote

Custom windscreen from Active Sports makes your facility look professional and offers added privacy as well as creating a backdrop for improved ball perception.

“Active Sports came in with the lowest bid when we first equipped our new courts. That was several years ago. We have remained with Active Sports because their service is exceptional and their product knowledge is outstanding.”

- Jim Daugherty, Head Tennis Coach, Valparaiso University, Valparaiso, IN
Custom Windscreen Enhancements & Accessories

Windscreen Air Vents
Air vents reduce the amount of stress windscreens place on a fence, especially during high winds. They are recommended every 10 linear feet on 9 ft tall windscreens.

Boxed Air Vents
Die Cut Air Vents

Fastening Devices
50 lb tensile strength ty-raps are recommended.

- Black Poly Rope (300 ft roll) (POLYB)
  - Ty-Raps: 50 lb, 8" (100 Pack) FCT8B50-100
  - Ty-Raps: 50 lb, 8" (1000 Pack) FCT8B50-1000
  - Ty-Raps: 50 lb, 14" (500 Pack) FCT14B50-500

- Ty-Raps: 75 lb, 8" (100 Pack) FCT8T75-100
  - Ty-Raps: 120 lb, 8" (100 Pack) FCT8B120-100
  - Ty-Raps: 120 lb, 14" (100 Pack) FCT14B120-100

Custom Logos
There is no better way to promote your facility or team or identify a sponsor than with a custom logo. A windscreen logo is highly visible and makes great use of an otherwise blank surface. Our logos are printed directly onto the surface of the windscreen so they are durable. Available in any size and in multi-colors.

Contact us for a quote. 1-800-322-2848

Protective Padding
Each pad is custom made to protect players and cushion beams, posts, and walls. Available in 2", 3", and 4" thicknesses and in nearly every color. Also available with custom logos.

Contact us for a quote. 1-800-322-2848

Court Covers
Our court covers protect your court from the elements and from foot traffic during non-tennis events. They come with net post cutouts and also come in two pieces that overlap at the tennis net line. Available in vinyl or economical polyolefin.

Contact us for a quote. 1-800-322-2848
Active Sports can help open your new facility or update an existing one with curtain and divider netting systems. We even offer professional installation services.

**Vinyl Backdrop Curtains**

Vinyl curtains help to separate courts and contain stray tennis balls, create a visual backdrop, and block distracting foot traffic. Curtains tend to be around for many years so it is important that they be made well so that they last! Our curtains are made from high quality, flame retardant, reinforced vinyl and all seams are heat-sealed and double sewn.

**Options & Applications:**
- Available in any height to accommodate existing cable systems
- Available in 13 oz., 18 oz., and super strength 22 oz. weights
- Numerous colors and options available (see details)

**Contact us for a quote.** 1 800-322-2848

**Divider Netting**

Designed to keep balls within the playing area, our divider netting is made of durable 1 3/4” square mesh. Standard size is 60’ x 10’ (two divider nets needed per court sideline). Brass grommets are installed for attachment. Standard colors are Black or Green.

**Options:**
- Custom lengths and heights
- Permanent and Velcro attached vinyl bottoms
- Removeable netting bottom
- Lead rope bottom

**Colors:**
- Black
- Green
- White

The Line Master

This workhorse features an all-aluminum, curved handle for rust-free outdoor use and textured brush for effective soft court line cleaning. Course or fine bristles available upon request.

**The Line Master**

**Replacement Brush Assembly**

(includes brush, springs, axle, and bushings)

**The Line Master**

**LBLLM-RBA**

Deluxe Proline Line Sweeper

Constructed of rust-resistant cast aluminum, this line sweeper is heavier for even more effective line sweeping. It is designed with friction-driven rubber sleeves and a synthetic bristle brush.

**Deluxe Proline Line Sweeper**

**LBLPRO**

**Replacement Brush Assembly**

(includes brush, springs, axle, and bushings)

**Deluxe Proline Line Sweeper**

**LBLPRO-RBA**

Line Scrub

This simple line brush is great for breaking up tough, caked-on material. Heavy bristles give the brush extra body and an angled aluminum handle provides extra leverage.

**Line Scrub**

**LBLLSCRUB**

**Replacement Brush**

**LBLLSCRUB-RB**

The Court Maid

Constructed of powder-coated aluminum, this ground level unit is designed to be installed at exit points of clay courts. Simply brush shoes on its bristles and all clay falls into its collection basin. Brush unit lifts for removal of accumulated clay. No electricity or water required.

**The Court Maid**

**SCLCM**

Har-Tru Shoe Brush

This shoe brush has a sturdy metal base that can be attached to the sidewalk or left free standing. Soft upper bristled dust off the sides of shoes while stiff bottom bristles scrap topping from the soles. Poly brush mounts will not crack or rot like typical wood.

**Har-Tru Shoe Brush**

**SCLSB**

Tennie Two-Step

The industry standard for keeping facilities clean of clay! It consists of a UV-resistant water basin containing two perforated rubber panels designed to force water into the soles of tennis shoes and clay material out.

**Tennie Two-Step with Brush**

**SCLTTSB**

**Tennie Two-Step**

**SCLTTS**

**Brush Attachment**

**SCLTTS-BRUSH**

The Treadblaster

This unique shoe cleaner uses high force, concentrating nozzles that shoot crossing jets of water into the soles of your shoes, cleaning out all clay in 5-10 seconds. No electricity required, only a standard \( \frac{1}{4} \) inch garden hose (30 - 60 PSI). Mounting plate includes.

**The Treadblaster**

**SCLTBB**
Mahogany Drag Broom
This classic drag broom uses natural fiber bristles to groom the court. It is 7’ wide with 7” natural bristles. It has a green enameled steel tube handle.

Aluminum Drag Brush
A standard of the industry, this drag brush has the built-in strength and versatility with replaceable dual 4½” bristles designed to level and manicure your court. Reverse the handle and double the life of the broom. Every club should have one!

Steel Bristle Drag Brush
The steel bristles of this drag brush excel at agitating the surface of hardened indoor and outdoor courts with sub-surface irrigation. They help break up algae and prevent its formation. Stainless steel bristles resist rusting and increase this product’s durability. Bristles come in 12” sections and replacements are available.

Aussie Clean Sweep
This unique combination tool came all the way from Australia to help pick up and remove those troublesome leaves, pine needles, stones, and other debris found in your soft court. The PVC tines lift the debris and flip it on top of the unit so it can be carried off the court. It even pick up ball fuzz! It simultaneously grooms the court.

Aluminum Drag Brush/Lute
The drag brush/lute combination has three individual rows of 6” bristles. Two softer, outer bristles move the finest particles of clay, and a third firm, inner bristle levels low spots and divots. Turn the brush over and you have a 7’ lute for leveling high spots.

Gator Rake
Designed to grade, level and groom the surface, the Gator Rake uses an adjustable tine system. All aluminum and stainless steel construction.

Court Devil/Court Devil Jr.
The tow model Court Devil is designed to agitate the court surface without removing or damaging existing line tapes. It helps prevent and break-up mineral deposits, mold, algae, and fungus that may tighten the court surface. It agitates with circular steel blades mounted on free turning axles. Weighs 105 lbs. and is 48” wide.

This smaller hand-model Court Devil Jr. is designed for maintaining areas along the court perimeters and beneath the net line. It is also great for loosening localized hard spots. Weighs 85 lbs. and is 16” wide.

Court Devil
SLCD
Court Devil Jr.
SLCDJ

Tow Scarifier
This 48” wide heavy duty tow model scarifier is truly a workhorse for loosening the top surface on clay courts. It is especially good for indoor clay courts and sun-baked, southern courts with excess calcium build-up. The unit is heavy enough to allow its two rows of case hardened nails to really penetrate the surface

• Staggered rows prevent clumping
• Sized to fit between the alley tapes
• Levered wheels lift unit over tapes so that they can be left in place
• Adjustable tow hitch fits most utility vehicles
• Removeable steel plate allows for easy nail replacement

Tow Scarifier
SLTS4
### Auxiliary Wheels

Auxiliary wheels have been designed to ease roller movement over difficult terrain. Leverage handles raise or lower the wheels, lifting the roller off the ground to prevent damage. A heavy duty locking pin secures the wheels in position. The Auxiliary wheels will increase the life of your roller and make it much easier and quieter to use when difficult transporting is required.

### CourtPac Covers

Protect your investment! The cover is made of heavy duty vinyl and is designed to fit 4’ or 5’ CourtPac Pro or 24” or 48” wide CourtPac roller.

Small Hand Roller
Perfect for touch-up work around court edges, patching low spots, etc. The drum size is 18” x 24” and can be filled with water for a total weight of 320 lbs. The all steel unit has a scraper bar for removing any build-up on the drum. A good companion for your heavy-duty powered court roller.

Small Hand Roller
RLHR1824

Split-Roll Hand-Tow Roller
This 24” x 24” hand roller can turn on the court without tearing the court surface due to its dual drums that can be filled with water for added weight. It has a scraper brush for removing build-up on the drum and the reversible handle allows this unit to also be towed. Perfect for the private court owner on a tight budget.

Split-Roll Hand-Tow Roller
RLHR2424

ServeAce Alloy Roller
The fastest and quietest roller available, the ServeAce is capable of rolling and grooming an entire court in as little as three minutes. It is built on a battery driven, direct drive utility vehicle for additional ruggedness, dependability and can roll up to 25 courts with one charge. This unit allows you to roll and brush in one operation utilizing a 4” center-pivoting grade broom and an 80” drag broom. With a simple flick of a switch, the roller unit can be lowered and raised to a multitude of pressure settings. The PVC roller makes for extremely quiet operation.

ServeAce Alloy Roller
RGSERVACE

CourtPac
Easy to operate and easy to maintain, the CourtPac is equipped with an easy-to-start Honda engine. Speed and direction are controlled with a hydraulic transmission that is smooth, responsive, and easy to steer. Maintenance is as easy as just adding oil.

CourtPac
RLCP24
48” CourtPac Roller

- **Moss Buster**
  - ALMB

### Moisture + Dust Solutions

Calcium chloride and environmentally friendly magnesium chloride for dust control and moisture retention. Available in 50-lb. bags.

- **Magnesium Chloride (50-lb. bag)**
  - CMMC50
- **Calcium Chloride (50-lb. bag)**
  - CMCC50

### Line Tapes & Nails

Active Sports stocks multiple styles of line tapes and a variety of different nails for any soft court surface. We also have lines for QuickStart.

See Page 34 for line tape and nail selections.
Har-Tru Clay Courts

Har-Tru is the most popular clay court surfacing material in America. Clay court tennis leaves players more physically and emotionally satisfied than other surfaces; rallies are longer and the surface reduces stress on knees, back and lower extremities.

Whether you need clay material for new construction, resurfacing, or emergency repair, we can get it to you fast and save you money on freight because of the high volume of clay we ship all over the United States.

Active Sports offers free shipping on most clay court accessories with any Har-Tru order.

Contact us for a quote. 1-800-322-2848

Har-Tru
Har-Tru tennis court surfacing with binder is designed for use on clay courts with sprinkler systems.

- 50-lb. Easy-Lift bags (1 or 1.4 tons per pallet)
- 80-lb. bags (1 or 1.4 tons per pallet)

Hydroblend
Tennis court surfacing material for sub-irrigated tennis courts.

- 50-lb. Easy-Lift bags (1 or 1.4 tons per pallet)
- 80-lb. bags (1 or 1.4 tons per pallet)

American Red Clay
Tennis court surfacing material for use on red sub-irrigated tennis courts or for top dressing a variety of natural clay courts.

- 70-lb. bags (1.4 tons per pallet)

Har-Tru Coarse Blend
Coarse surface manufactured for indoor and outdoor sub-irrigated courts where extra coarseness and sliding material are needed.

- 75-lb. bags (1.3 tons per pallet)

For the best playing surface, it is recommended that a clay court be resurfaced with 2 - 4 tons of material each year.
LSI Courtsider

LSI is a company known for its lighting solutions and overs very precise, brilliant performance that is free of glare and easy to install with modular mounting.

Tennis Optics™ Advantage Series

The Advantage Series by Tennis Optics™ provides higher levels of light with lower wattage bulbs: you see the ball more clearly and you save. It uses a VISION reflector and a unique lamp alignment to throw the maximum amount of light to the court surface, 150 footcandles. This exceeds the USTA’s court lighting recommendation.

- Produces the highest lighting levels available
- Lights the court, not the sky
- Has exceptional uniformity
- Lowers anergy costs/overall operational costs

Tennis Optics™ Professional Series

The Professional Series by Tennis Optics™ is known for its proven durability and consistent performance at an exceptional value.

- Advanced design
- Reliable performance
- Aesthetically pleasing, low-mounted fixtures
- Uniform lighting

Increase the hours of play on your court with a lighting system designed specifically for tennis!

“Active Sports is an amazing organization to work with...Their superior knowledge, professionalism, and dedication in finding the right equipment and solutions for their customers’ needs are unparalleled.”

- Brad McBride, Tennis Professional/Facility Manager, Centercourt Athletic Club, Chatham, NJ
Novacrylic is a high performance all weather, high solids 100% acrylic coating system designed for asphalt and concrete recreational surfaces. Regarded as the best, Nova has become the surface of choice all over the world.

Tennis Surfaces

**NovaCourt** Ready-to-use 100% acrylic coating system designed for do-it-yourself projects (application-ready 5 gallon buckets)

**NovaCoat Combination Surface:** Blend of NovaCoat surfacer and NovaFill texture coat.

**NovaPlay** Ready-to-use high performance, heavy duty color coating for tennis courts subject to heavy wear (available in 5 and 30 gallon containers)

Line Markings

**NovaTex** Textured white line paint (1 gallon per court)

**NovaLine** Non-textured white line paint (1 gallon per court)

**Seal-A-Line** Primer for sealing the edge of masking tape to ensure clean line edges (1 gallon per court)

About Nova Court Surfaces

**High Performance**

Its non-glare, non-fading colors are unaffected by extremes in weather or by ultraviolet rays from the sun. The non-abrasive, no-slip surface is easier on the feet and legs, and tennis balls last longer. Texture can be adjusted to achieve whatever speed or bounce desired.

**Easy Application**

NovaCourt is supplied in ready-to-use 5 gallon containers that are easy to manage. Simply apply 2 coats at 90 degree to each other with a squeegee.

Call for pricing and project support

Preparation & Repair

**NovaSurface** 100% acrylic base coat for asphalt and concrete with use of CP761 (available in 5, 30, and 55 gallon containers)

**Nova CP761** Concrete primer (available in 5, 30, and 55 gallon containers)

**NovaBond** Patch binder and slurry base. Used to repair “birdbath” puddles and fill in voids greater than 3/16” deep. (5, 30 and 55 gallon containers)

**NovaLevel** Ready-to-use acrylic paste for small areas (less than 3/16” deep) that need a lift (available in 5 and 30 gallon containers)

Line Markings

**NovaTex** Textured white line paint (1 gallon per court)

**NovaLine** Non-textured white line paint (1 gallon per court)

**Seal-A-Line** Primer for sealing the edge of masking tape to ensure clean line edges (1 gallon per court)
